Congress Needs Term Limits Now!

More than 80% of Americans support Term Limits for Congress.

They have good reason to demand Term Limits. The growth of Big Government has gone hand in hand with the increasing length of service in Congress. Look at who is running Washington:

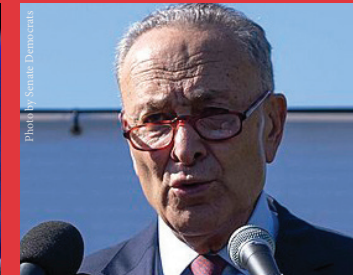

Nancy Pelosi
34 Years in Congress

Joe Biden
44 Years in Washington

Mitch McConnell
36 Years in Congress

Charles Schumer
40 Years in Congress

The longer members stay in Congress, the closer they become to bureaucrats and lobbyists, and the more removed they are from the people who elect them.

Now, Congress has become a permanent ruling class.

Americans don't want Socialism. We don't want our borders torn down and amnesty for illegal aliens, we don't want our taxes raised, and we don't want our national defense gutted. Yet the lifetime politicians who lost touch with Americans are moving fast to erase President Trump's gains and taking us on the road to Socialism.

A constitutional amendment for term limits has been introduced in Congress as SJ Res 3 and HJ Res 12. Senators would be limited to two terms (12 years) and Representatives to three terms (6 years).
